

Gardner Dam Scout Camp 2021 Summer Camp Resident Health Plan Bay-Lakes Council BSA

Purpose: To provide guidance to all Scouts and Leaders who plan to attend Gardner Dam for a summercamp experience in 2021.

1. **BSA Health Form:** Parts A and B must be updated with current signatures within two weeks of coming to camp. Health forms are to be provided to the camp prior to arriving.
2. **Pre-Camp Requirements:** All Scouts planning to attend summer camp at Gardner Dam must comply with all state health requirements including any Stay-at-Home Order, maintain social distancing, and avoid contact with any individuals with illness. Scouts and adult leaders arriving at camp will be required to certify they have met these requirements for two weeks prior to camp.
3. **Illness before Summer Camp:** If a Scout or adult is showing signs of illness such as running a temperature, throwing up, diarrhea, nasal drainage and/or coughing/sneezing; please plan to stay at home. This greatly reduces the spread of illness at camp but also supports recovery.
4. **Pre-Camp Preparation:** A Pre-Camp Preparation Summary with further instructions on how to prepare for summer camp is provided in the Summer Camp Program Guide. These guidelines are highly recommended. It is recommended that all persons bring along at least one mask in case it is needed.
5. **Camp Check-In Procedure:** All Scouts and adults checking in to camp will be required to fill out a health questionnaire regarding any current illness or other symptoms before entering the camp proper. If any questionable results are identified, the Scout or adult will be examined by the Camp Health Officer. The Health Officer will check temperature and examine any health conditions and determine if the Scout will be admitted to camp. In general, if any health concerns are present the individual will be sent home.
6. **Health Checks during Camp:** An adult leader from each Pack will be asked to conduct twice daily health screenings of the entire Pack during summer camp. A non-contact thermometer will be provided and results will be recorded in a daily log book each Pack will receive from camp.

Any suspect symptoms identified will be checked by the Camp Health Officer and a determination made as to isolation at camp or return home. Any person suspected of illness must wear a mask.
7. **Camp Visitation:** No camp visitors will be allowed, thereby minimizing the possible influx of potential virus from outside areas.
8. **Camp Cleaning:** A dedicated camp staff crew will perform camp cleaning and disinfection on a daily continuous basis. This includes cleaning all common areas such as the dining hall and program areas, as well as shower houses and other areas of use. Cleaning and disinfecting will be at least once per day for all areas.
9. **Camp Assignments:** All units will be assigned to a specific sub-camp. Attempts will be made to accommodate site preferences, but please understand, camp will have final determination on pack sites.

10. **Food Service:** This year, we will be doing a mix of meal service in the dining hall and at another location. Everyone will need to wear a mask while in-line and while moving around dining facility. While at your table with others from your cohort group you will be able to remove your mask.
11. **No Large Group Activities:** All group activities will be limited.
12. **Program Activities:** The program areas will be available to Scouts based on sign-ups. We encourage a minimum two Scouts from a Pack attend program together. This will allow for hands on skill to be practiced with someone within your cohort group. When social distancing is not an option, masks will be worn in program area.
13. **Trading Post:** The camp trading post will be available to all Scouts and Scouters. We ask that masks be worn following capacity and social distancing guidelines.
14. **COVID Mitigation:** We are using a multi-layer mitigation strategy to prevent the spread of COVID in camp.
 - Being outside.
 - Wearing of masks
 - Social distancing
 - Hand washing and sanitation

We understand that guidelines from all entities regarding summer camp operations in the Country, the State of Wisconsin and Langlade County have been changing and it is possible that this plan may have to be modified to meet the changes.

We will do our best to communicate any and all changes with Scouts and Leaders as quickly as possible.
