

CAMP HIAWATHA

- DISCOVER YOUR ADVENTURE -

Located on 800 acres in the middle of the Hiawathaland National Forest you will find Camp Hiawatha. Bunting Lake is a 60-acre reservoir and fully encircled by this scenic beauty in the heart of the Upper Peninsula of Michigan. Many local trails and waterways like Pictured Rocks National Lakeshore, The North Country Trail, Grand Island, and the AuTrain River, are just a short drive from camp.

Camp Hiawatha provides a weeklong patrol style camping experience. Amenities include 8 camping sites that can accommodate 40-80 campers. Each site has flush toilets, patrol shelters and a central fire ring. A shower house with 10 stalls including handicap accessibility is also available.

Camp Hiawatha offers a multi-layered program for Scouts of all ages and experience levels. A program designed specifically for first time campers, many merit badge opportunities for Scouts working on their advancement, and a high adventure program for older, more experienced Scouts.
