IMPORTANT NOTICE RE: RAFTING: Webelos/AOLs will only be allowed to flatwater raft if the NCAP variance we have applied for with National Council is approved. Until then, we will not open the online rafting sign-up. If the requested variance is not approved, we will still offer Adult Whitewater Rafting Trips. Scouting America has determined that it is not an age-appropriate activity because the Wolf River is classified as a Whitewater River and the Guide to Safe Scouting doesn't allow whitewater activities for Cub Scouts. The section of river we use for this much loved programming is NOT whitewater and is arguably safer than natural lakes and ponds you cannot see the bottoms of because the depth of the utilized section averages less than 27" deep. Nevertheless, without the variance, we cannot offer the activity without risking our accreditation. Thank you for your understanding.
